

ASSIGNMENT PATTERNS

Q1. Make the following pattern.

```
# Ask n from user which means
# number of lines to print
# Example n = 4

1
1 2
1 2 3
1 2 3 4
```

Q2. Make the following pattern.

```
# Ask n from user which means
# number of lines to print
# Example n = 5

1
2 1
3 2 1
4 3 2 1
5 4 3 2 1
```

Q3. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5

5
4 5
3 4 5
2 3 4 5
1 2 3 4 5
```

Q4. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5

5
5 4
5 4 3
5 4 3 2
5 4 3 2 1
```

Q5. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5

5 4 3 2 1
5 4 3 2
5 4 3
5 4
5
```

Q6. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5
```

```
1 2 3 4 5
2 3 4 5
3 4 5
4 5
5
```

Q7. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5
```

```
5 4 3 2 1
4 3 2 1
3 2 1
2 1
1
```

Q8. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5
```

```
1
2 3
4 5 6
7 8 9 10
11 12 13 14 15
```

Q9. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5
```

```
1
1 2
1 2 1
1 2 1 2
1 2 1 2 1
```

Q10. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 5
```

```
1 2 3 4 5
1 2 3 4
1 2 3
1 2
1
```
