* *

* *

* *

* *

* *

* *

* *

* *

* *

* *

* *

*
```

Q2. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 9

1
1 2
1 2 3
1 2 3 4
1 2 3 4 5
1 2 3 4
1 2 3
1 2
1
```

Q3. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 9

5
4 5
3 4 5
2 3 4 5
1 2 3 4 5
2 3 4 5
3 4 5
5 5
```

Q4. Make the following pattern.

Q5. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 9

1
12
12
123
1234
1234
123
123
12
```

Q6. Make the following pattern.

```
# Ask n from user which means number of lines to print
# Example n = 9

1
2 1
3 2 1
4 3 2 1
5 4 3 2 1
4 3 2 1
3 2 1
2 1
1 1
```
